Subjects

- RT PCR
- SDS PAGE
- PCR
- Comet assay
- Crispr/Cas9
- 'R' Programing
- Bioinformatics
- Cheminformatics
- Computational Aided Drug Designing (CADD)
- Immunoinformatics
- Biotechnology
- Molecular Biology
- Genetics
- Microbiology
- Food Microbiology
- Food & Nutrition
- Agricultural microbiology
- Biochemistry
- Enzymology
- Development of Probiotics
- Biomarker development
- Pharmacogenomics
- Docking
- Virtual screening
- Botany
- Zoology
- Chemistry

PROJECTS/INTERNSHIP

Ciencia offering Projects for all Life sciences Professionals with various durations from 15 days to one year. We design projects according to student parent institute guidelines, also will help you writing dissertation.

TRAINING

Professional training in lifesciences is brought to you by Ciencia life sciences. All the training courses are designed for transform you into a good researcher for the future. By the end of the course, you will be armed with all the necessary knowledge to successfully implement the concepts and work in your field.

RESEARCH

Ciencia supports Researches by Intelligently analyzing data from their projects, support for writing Projects to submit any funding agencies and publications. We will provide regular progress reports and after the analysis we will provide you with all output files that we have generated.

FACILITIES

Our research students benefit from Doctrol faculty teaching. Research resources and equipment, dedicated staff and information technology including Bioinformatics and Chemoinformatics for research analysis. For one year projects we are giving free publication support and job assistance
